

Sun Safety in Lower School

Dear Parents & Guardians,

As the days begin to get warmer, we'd like our pupils to begin to think about sun safety.

We want to encourage them to be **'Sun Smart'** and do the following on hot days:

- Bring a hat to school (with your name in it!)
- Bring a bottle of water (With your name on it!)
- Bring sunglasses
- Make sure you put on sunscreen before you come to school

Sunscreen

- Ensure your child applies sunscreen (we recommend factor 25+) before school.
- Send in a bottle of sunscreen with your child, clearly labelled with their name to keep in school and use throughout the day.
- As part of our duty of care, staff will assist younger pupils to apply sunscreen when they go outside in the sun.
- If you do not wish staff to do this, please notify the school.

By following these steps, we can ensure that your children are happy and safe when working and playing outdoors in the sun.

Kind regards
Mrs K Locke
Head of Lower School
